Your Dreams On Screen (Ages 9-12)

Facets Multi-Media

1517 W. Fullerton Ave., Chicago

Fee: \$40

Where does your child dream of going, and how will they get there: Time capsule? Space ship? Treehouse on wheels?

Let the adventure begin through the magic of film and the green screen color key technique!

Kids learn how special effects can bring their dreams to life in a hands-on workshop as they discover:

- Basic platforms of narrative filmmaking, including storyboards and shot design
- Character and setting development
- Basic set construction, using found materials
- Principles of "green screen" technology
